

# Suntile<sup>™</sup> Roofing

 **STRATCO**

Crafted with style, designed and manufactured with pride. Suntile Roofing is an investment in your home's future that will withstand the rigours of weather and time.

Your architectural dreams are brought to life with a majestic roofing masterpiece.

## Superior Appearance

Stratco Suntile™ steel roof tiles are an attractive, lightweight roofing solution for your home. They feature a striking scalloped profile that will complement both modern and traditional homes.

Suntile roofing features a specially designed ridge cap. The ridge cap is unique to Stratco and offers unsurpassed good looks. Combine this design excellence with the ability to choose from a wide range of roofing colours and you have a superior product that will transform the appearance of your home. Suntile steel roofing is ideal for new residential roofing and re-roofing.

## Ideal Roofing Solution

You can be assured your roof will be strong and durable when you choose Suntile roof tiles as they are made from high quality coloured steel. When correctly installed, the interlocking tile panels deliver a weather tight barrier to provide you, and your home, with protection against the elements.

The tile measures 1300 x 370mm. Suntile's compact size gives you design flexibility and ease of handling, resulting in quicker installation and minimised transportation costs. The Stratco Suntile is a light weight roofing solution, weighing only 3.5kg per m<sup>2</sup>, minimising the cost of framework and making it suitable for situations where unstable ground exists.

## Everything You Need

Complete the look of your Suntile roof with an extensive range of Stratco roofing accessories that have been designed to complement your roof and home. Add the finishing touch with Stratco Suntile Valley Gutter, Flashings and Ridge Capping. There are four Ridge Cap profiles to choose from; as displayed in the middle of the page.
