ABOUT STRATCO

CAREERS INFORMATION

OVER 70 YEARS OF SERVICE

In the early 1940's a young Alf Stratton (senior) established a plumbing company out of his own home in Adelaide, South Australia.

In the ensuing years, despite experiencing some tough times, the business began to grow as a result of Alf's persistence and desire to succeed. In 1948, encouraged by his success and with the unrelenting support of his wife Mavis, they incorporated Stratco Metal Pty Ltd to manufacture sheet metal products for their plumbing company to install.

It was during these humble beginnings that Stratco's philosophy was firmly established: ***'We simply want to continue to produce and market quality products, innovate new products and back them with qualified people who offer friendly service and advice.'***

It is the relentless application of this philosophy on which our dynamic growth has been, and will continue to be built.

Stratco's continued success has resulted in the company having manufacturing and retail facilities in all mainland States and Territories of Australia and New Zealand.

INNOVATIVE RANGE

Stratco's extensive range of products includes:
