

SQUASH TOP SECURITY FENCING

STRENGTH | STYLE | SECURITY

STRATCO SQUASH TOP FENCING ADDS STRENGTH, STYLE AND SECURITY TO YOUR PREMISES!

DRILLED THROUGH DESIGN

The design of Stratco Squash Top Fencing utilises the strength of galvanised steel and incorporates 25/25 squash top pickets which are inserted through the 40/40 cross rail adding a smoother flowing look. The pickets are inserted through laser cut holes in the rail and welded for added strength and security.

All styles are manufactured from Galvanised steel, silicone bronze welded and powder coated Satin Black for longevity.

Single and double gates available in-stock. Sliding gates available to order.
