

STRATCO ORECASE

LARGE DIAMETER METAL MINING CORE TRAYS

QUALITY METAL CORE TRAYS

Custom Made*. Manufactured from high quality Zinc/Al, Stratco Large Diameter Metal Core Trays are designed for a long useable life.

STRATCO LARGE DIAMETER METAL CORE TRAYS FEATURE:

- Ideal for petroleum core sizes and sonic drilling.
- Designed to hold 3" (76mm) - 6" (152mm) size core - other sizes also available.
- Your choice of compartments - 1, 2, 3 or more.
- A squat version can be made to hold diamond sawed half core.
- Strong, high-tech rivets are stronger than conventional aluminium.
- Self-stacking ends.
- Drainage slots.
- Variable lengths to suit your requirements.
- Optional lids and handles.
- Robust extra strong design for core protection and transportation.
- Two styles available - single or double outer sides.
- Custom sized trays are available upon request*.

**Minimum order quantities may apply.*
