

⚠ Warning! For your safety, the shelf unit must always be assembled with suitable wall mounting. The load on the shelves must be evenly distributed, the unit is not suitable for rooms with elevated humidity, as this could cause damage to the wooden boards.

If the connector tabs of the shelf supports (C) should bend on assemble, they can be bent back into their original position with the aid of a flat head screwdriver.

Warning! Always wear gloves when assembling the unit to prevent injury. Never exceed the maximum shelf load or the maximum load for the complete unit array (see details on the packaging or on the unit itself).

Remove all packaging materials. Check that all the components are supplied in full (see list of components).

To prevent scratching, please assemble this product on a clean and smooth surface (e.g. a carpet).

When locking components in place, please use a rubber mallet to avoid damage this finish.

Only erect the unit on level, smooth floors, or else stability and maximum load-bearing capacity may not be guaranteed.

Please only use wall plugs and retaining screws that are suitable for your type of wall and the weight of the unit! (Wall plugs or screws and tools for wall mounting are not supplied with the product.)
